Austria

University of Art and Design Linz

“The University of Art and Design Linz (Kunstuniversität Linz) has its institutional and programmatic roots in the “Kunsthochschule” (Art School) of the City of Linz, which was founded in 1947, assigned academy status in 1973 and finally made a fully-fledged university in 1998. The institution was conceived as an explicit statement to signify dissociation from the previous art policy of the National Socialist era. This is in particular exemplified by its emphasis on the fundamental values of freedom of art and research, its commitment to modernism and contemporary art and the positioning of the University at the interface of free-artistic and applied-economically oriented design. In the past as in the present, these values form the basis of the fundamental essence and identity of Kunstuniversität Linz.”¹
