Partner universities for Textile Engineering students

As a Textile Engineering student at the Swedish School of Textiles, you have the opportunity to spend a semester abroad at one of our partner universities.

Exchange studies offer valuable international experience, the chance to broaden your academic knowledge, and the opportunity to develop intercultural skills that are highly valued by future employers.

The destinations listed below are currently available for students admitted to the Textile Engineering programme in 2025. Please note that available exchange opportunities may be subject to change.

Erasmus+ agreements

- Germany, RWTH Aachen University
- Lithuania, Kaunas University of Technology
- Netherlands, Saxion University of Applied Science
- Türkiye, Istanbul Technical University

Bilateral agreements

- Hong Kong, Hong Kong Polytechnic University

Detailed information about courses, language requirements, semester dates, and student experiences can be found in SoleMove.

For general information about exchange studies, application procedures, scholarships, and practical preparations, please visit the University of Borås exchange studies website:

[Exchange Studies at the University of Borås](#).

To explore partner universities and find detailed destination information, please visit [SoleMove](#) and use the **Destination Search** function with the tag “**Textile Engineering.**”

If you have any questions regarding exchange opportunities, please feel free to contact the International Office at exchange@hb.se.
