

Guide to Creating a Qualifications Portfolio with CV for the University of Borås

The structure below is to be followed by applicants for teaching and research staff positions at the University of Borås in order to facilitate recruitment administration. The structure is also used for qualification acquisition applications. This document replaces the previous Guidelines for Portfolio of Qualifications, Reg. no. 227-07-10.

The following instructions apply:

- Keep the same numbering and heading.
- Note that the items differ in relevance for different positions.
- Leave blank those items that are not relevant.
- The Qualifications Portfolio with CV is to be uploaded as one file. Certificates and publications are to be uploaded separately.
- The application must be accompanied by the registration number (listed in the ad).

1. Basic information/CV

1.1. Background

Brief background as to why you are applying for this position can be given. This is followed by:

1.2. Name

1.3. Birthdate

1.4. Residential address and telephone number

1.5. Current employment

Title, subject area, scope (e.g. full-time), and location. Include the start date for this position.

1.6. Previous employment

Specify time periods and scope. Use reverse chronological order. Include any parental or other leaves of absence.

1.7. Other information

2. Degrees and scholarly competence

2.1. Higher education degrees

Specify the year, subject, and type of degree. Attach documentation in separate files.

2.2. Docent/Associate Professor qualification

Enter the year of the qualification. Attach documentation in a separate file.

3. Scholarly qualifications

3.1. Researcher profile

Describe your research focus (maximum 500 words).

3.2. Publications

List your publications by publication category and in reverse chronological order.

3.3. Research environment and leadership

Describe responsibilities and assignments aimed at building a research environment, such as work within doctoral education programmes, leadership of research groups, organisation of conferences, networks, international exchanges, etc.

3.4. Funding received

Report research funding you have received, e.g. from research councils, the EU, foundations, business and industry, and governmental authorities. Briefly describe your role in the application(s). Indicate the accountable authority and co-applicant(s). Attach documentation.

3.5. Expert review experience

Describe reviewer experiences/expert assignments, e.g. for international journals, assignments as external examiner and examining committee member, appointments, quality assurance.

3.6. Other scholarly work

Describe any other scientific/academic/scholarly activities within national and international networks, in business and industry, and governmental authorities, etc. Make note of patents, software, policy development, models, products with industrial application, exhibitions, awards, etc. Make note of collaborations and national and international research collaborations if not already detailed under 3.1. Note work as a visiting research fellow abroad or host for researchers at your own department.

4. Fine arts qualifications

The items below relate to positions relate to the fine arts and supplements or replaces the scholarly merits above. It is not necessary to list the same information more than once.

4.1. Fine arts activity

Report no more than three examples of fine arts activity.

4.2. Fine arts production

List your fine arts outputs in reverse chronological order, ensuring they have been presented in recognised contexts through selection processes such as curation or peer review.

4.3. Fine arts leadership

Describe fine arts leadership roles and other types of involvement in the arts.

4.4. Funding received

Report funds you have received. Attach documentation.

4.5. Curation and assessment

Describe curatorial work and reviewer experiences/expert assignments in the fine arts area.

4.6. Fine arts research and other fine arts work

Report other fine arts work. Report fine arts research projects if not mentioned above, including your role and output. Describe awards and work in networks.

5. Pedagogical qualifications

Pedagogical skills refer to the design, development, implementation, and examination of teaching. It includes both experiences and skills as teaching staff.
